The person who neglects to provide for a "Rainy Day" neglects the first duty. Every practical thinking man realizes that it is a duty he owes to himself and his family to save a portion, however small of his earnings. A saving account opened early in life and systematically kept up, will in time afford the means to grasp business opportunities. It will help to buy a home, provide in time of sickness and insure a competency and the comforts of life in old age. For Children no better of acceptable present could be made to a child than a savings account where the money is absolutely safe. ## AWFUL DEFEAT OF THE BRITISH

Flying Column Receives Very  
Serious Check.

### GREAT LOSSES WERE CAUSED.

The Africans Succeeded in Inflic-  
ting Much Damage.

### THIRTY-SEVEN BACK FROM THE SCENE.

The Forces of King Edward Were  
All but Annihilated, Their To-  
tal Casualty List Being  
Several Hundred.

London, April 23.—The war office has received from Brigadier General Manning, in command of the British forces in Somaliland a dispatch dated twenty miles westward of Galadi Somaliland, April 18, as follows: "I regret to report that flying column under command of Colonel Cobbe, which left Galdi, April 19, to reconnoiter the road to Walwal, had a most serious check April 17. On the morning of April 17, Colonel Cobb was at Gumburu, forty miles to the westward of Galadi and had decided to return to Galadi owing to serious difficulties in finding the road to Walwal and to the shortness of water. He was about to leave his protected camp when firing was heard in the direction of a small party under Captain Olivey, which had been sent out in a westerly direction to reconnoiter. At 9:15 in the morning Colonel Cobbe dispatched Colonel Plunkett with 160 men of Second battalion of the King's Africans, eight of the Second Sikhs and two Maxim guns for extrication of Captain Olivey, who had not been engaged. Colonel Plunkett on joining the detachment continued to push on. At 11:45 Colonel Cobbe heard heavy firing in the direction taken by Colonel Plunkett. At about 1 o'clock in the afternoon a few fugitives who were coming in reported Colonel Plunkett had been defeated with loss. The news has been fully corroborated since, and I have to report the total loss of Col. Plunkett's party with exception of thirty-seven Yaos, who have arrived here. The latest information extracted from the fugitives is to the effect that Colonel Plunkett pushed on after enemy's forces to open the country, seven miles westward to Gumburu, where he was attacked by a very strong force of mounted troops and enemy's infantry, who attacked at close quarters. He kept back the enemy until he had no more ammunition, when he formed a square and charged with bayonets in the direction of Colonel Cobbe's liaba. He moved some distance in this manner, but a great many men, including Colonel Plunkett himself, were killed or wounded by the pursuing enemy. At the last the enemy's infantry overwhelmed the square and annihilated all with the exception of thirty-seven fugitives above mentioned." The dispatch closed with the list of officers and men missing and killed in action, namely: Colonel A. W. Plunkett, Captain Johnson Stewart, Olivey, Norris and McKinnon and Lieutenants Gaynor and Bell, all of King's African rifles; Captain Vizey of Second Sikhs; Captain Hims of India medical staff, two white privates, forty-eight men of Second Sikhs and 124 men of the African rifles. Two Maxim guns were also lost. Another dispatch from General Manning, who immediately on hearing of the defeat of Colonel Plunkett started for Gumburu with 600 men, says further information reached him from Colonel Cobbe to the effect that the latter with 220 troops was encamped with plenty of food and supplies and four days' water. He has about 1000 camels and does not think he can withdraw from his position without assistance, because the scrub is thick and the enemy's forces seem likely to be on the offensive. General Manning adds: "I march again directly and expect to arrive at Gumburu tomorrow at noon. I shall accomplish the extrication of Colonel Cobbe with as much transport as possible and return to Galadi. I can only carry sufficient water for the march to Gumburu returning directly. I shall therefore, be unable to advance against the enemy if latter holds back."

### Report Is Confirmed

## COMPARISONS MADE.

General Condition of Cotton Manu-  
facturing Reviewed,

### GROWTH OF SOUTH.

Uniformity of Laws Throughout the  
United States Favored and Ala-  
bama Lifted up to the  
Level of Massachusetts.

Boston, April 23.—In an address of welcome to the delegates to the annual meeting of the New England Cotton Manufacturers' association, Lieutenant Governor Curtis Guild, Jr., reviewed the general condition of cotton manufacturing in New England and made comparisons between the industry in that section and in the south. He declared that in spite of competition New England held the sceptre of cotton manufacturers in this country, and called attention to the facts which he said indicated one grave cause of unrest in this particular industry. He quoted figures showing the increases in the number of active cotton spindles in the country from 1890 to 1900, and said it was idle to deny the fact that the rate of increase in the south was much swifter than in New England. He gave further figures showing that the south, in comparison with New England, pays five-eighths as many operatives a little over a third as much wages for operating about a third as many spindles and said:

"Not proximity to cotton fields, not climate, but cheaper labor, long hours, together with utter absence of excitement of extreme moderation of taxation explain the growth of the south. By the substitution of fine goods for coarse goods in our factories Massachusetts has managed to put off the delay of settlement, even to show an increase. Ultimately the day of settlement must come and we must face and deal with conditions that have reduced the spindles in some of our northern states. Massachusetts, with the shortest time limit and the oldest age limit of any state in the union, has to face the competition of states that limit neither age nor time. The solution of the problem is not in admitting little children in the Massachusetts mills nor in lengthening the hours of Massachusetts, but here and now to begin a crusade for the demands of humanity, enforced by law in Massachusetts, shall be enforced by law in all the states.

"Let us not drag Massachusetts down to the level of Alabama; let us lift Alabama to the level of Massachusetts; let us have uniformity of laws throughout the United States. It is idle for Massachusetts to stand alone with wise restrictions when Alabama and South Carolina compete with the toll of infant fingers against the labor of men and women."

### BOILER BLEW UP.

One Man's Head Torn from His Body  
and Thrown on Lumber Pile.

Winston-Salem, N. C., April 23.—The boiler at Shore & Mosher's sawmill, near Bothania, exploded killing three men and injuring another. The dead: George T. Shore, one of the mill owners, married; Luther George, single; William Logan, married. The injured, none seriously. Luther George, who was loading lumber at the time of the explosion, was struck by a piece of the boiler. His head was blown from his body and hung upon a pile of lumber. Shore was crushed under a mass of falling timber. Logan was scalded to death. Part of the boiler was blown 300 feet. The explosion was caused, it is thought, by low water in the boiler.

### Believed to Have Gone Down.

Newport News, Va., April 23.—The oyster schooner, Nellie Willing, Capt. Williams, is believed to have gone down with all on board during the storm that raged along the coast ten days ago. Two weeks ago the schooner sailed from Hampton Roads for New York with a cargo of shell fish. No word has been received of her whereabouts by her Hampton owners, nor has the vessel been sighted by any of the coast vessels sailing between Hampton and New York. The vessel has been given up for lost.

### Pushing Construction.

Durant, I. T., April 23.—The construction gangs of the Arkansas and Choctaw have moved camp to Province, five miles east of Ardmore. They expect to reach the latter town Saturday, and Monday they will begin laying track on the Platter-Mead cutoff, a distance of eight miles. They hope to complete the cutoff by May 10, and will then go to Asdown, Ark., the eastern terminal, to lay track from that place to Hope, Ark., a distance of thirty-three miles.

### First Allotment.

Ardmore, I. T., April 23.—Filing on land is now being made at Tishomingo. George Rennie of Lindsay was the first Chickasaw to receive his allotment. He selected 120 acres of his allotment adjoining the township of Lindsay, and his wife took as her allotment 160 acres adjoining Pauls Valley.

MEN'S FURNISHERS

The attendance on the revival at the Methodist church has grown with every service held during the week and the membership has been greatly revived. Many have asked for the prayers of the christian people, and the work of salvation has begun well, and gives promise of a rich harvest. Each sermon the evangelist preaches appears to appeal more effectively to the congregation than the last, and all are linked together in a chain of argument and persuasion. A large crowd was present last night and heard a strong sermon on "The Unpardonable Sin." He defined his sins by speaking of the Holy Ghost.

## Weak Hearts

Are due to indigestion. Ninety-nine of every one hundred people who have heart trouble can remember when it was simple indigestion. It is a scientific fact that all cases of heart disease, not organic, are not only traceable to, but are the direct result of indigestion. All food taken into the stomach which fails of perfect digestion ferments and swells the stomach, puffing it up against the heart. This interferes with the action of the heart, and in the course of time that delicate but vital organ becomes diseased. Mr. D. Kaule, of Nevada, O., says: "I had stomach trouble and was in a bad state as I had heart trouble with it. I took Kodol Dyspepsia Cure for about four months and it cured me."

## LAND BILL PASSED.

It Is Taken up by the Senate and Some Amendments Agreed To.

Austin, April 23.—The land bill was taken up by the senate Wednesday. The senate proceeded to consider the minority bill, which provides that the lands shall be sold by a system of sealed proposals.

Senator Harper offered an amendment. The Harper amendment prohibits the sales being made during the life of a lease, but gives the lessee or his assignee a preference right to purchase within sixty days after the expiration of the lease, requiring the lessee or assignee to file notice with the county clerk thirty days before the expiration of the lease, designating the land or sections intended to be purchased under this provision.

Senator Sebastian offered an amendment to the amendment, adding a proviso that there shall be only on assignee of any original lease holder, and limiting him to the purchase of four sections of land. Adopted, and Harper amendment also prevailed.

A number of corrective amendments were agreed to, bill engrossed and passed finally.

Senate decided to hold three daily sessions.

In the house Mr. Nelms sent up an invitation from Superintendent Worsham of the state lunatic asylum for the members of the legislature to attend a ragtime dance at the asylum.

It was accepted.

House went into committee of the whole to consider general appropriation bill.

Mr Green advocated the pending amendment by Mr. Schluter and others, to appropriate \$1800 to pay to the widow of Col. William Fitzhugh, the balance due on mules sold by him to the state of Texas in 1860. Adopted.

Mr Standifer offered a resolution inviting Senator Culberson to a seat on the speaker's platform and extend him the courtesies of the house, which was adopted unanimously, and the chair appointed Messrs. Sattidier, Talbot and Grisham as a committee to conduct him to the hall.

The senator's entrance to the hall was greeted by applause, and he met with an enthusiastic reception from the members. He occupied a seat with Speaker Neff for a few minutes, and then, after meeting the members personally, took his departure. He did not address the house. During his stay at the capitol Mr. Culberson also visited the senate, where business was suspended for a while. The senator also called on the governor.
